

Embedded Identification Number Key Chart

Rosco has the unique capability to embed an identifying number into the OPTI-SCULPT material, underneath the design structures. The embedded identification number can be viewed with a jewelers loupe or magnifying glass. The numbers in the left column reflect the embedded identification number of the corresponding pattern in the right column. The identification numbers are available every 3-4 inches on the sheet, giving users the ability to identify the OPTI-SCULPT pattern after cutting a sheet to a smaller size.

| Embedded Number | OPTI-SCULPT™ Pattern |
|-----------------|----------------------|
| 01 | 10° |
| 03 | 20° |
| 04 | 30° |
| 05 | 40°/60° Reversible |
| 07 | 20° X 40° |
| 09 | 15° X 35° |
| 10 | 10° X 20° |
| 11 | 10° X 30° |
| 12 | 10° X 40° |
| 13 | 15° X 45° |
| 14 | 10° X 60° |
